RELOCATION – LEVEL 1
RELOCATION – LEVEL 2
RELOCATION – LEVEL 3
RELOCATION – PAYMENTS
TDY PROCESSING SERVICES
TRAVEL CARD ADMINISTRATION

APPENDIX

DRIVER DEFINITIONS

REFERENCE GUIDE

PURPOSE:

Provide our Administrative Services customers greater price transparency to include insight into our budget, cost model methodology, direct FTE distribution and ultimately pricing by each of our administrative services.

HOW TO USE:

DATA SOURCE AND PRESENTATION:

The data provided within allows for your comparison of FY 2019 and FY 2020 allocations and prices across services and customers. All data is based upon the original price schedule that was initially provided for each customer. Prices do not reflect change requests or modifications made after the fact.

The presentation of data is provided via two tables.

- **Budget Table:** For each service you first have vision into the budget that makes up that service. We also provide you with details into the operational (direct) labor breakdown that supports that service.
- **Customer Allocation and Price Table:** Those same budget dollars are then allocated by customer which ultimately derives the customer's price.

Definitions:

- **Shared:** Costs that are allocated to all customers based upon their ratio of drivers compared to the grand total of all customer driver volume
- **Customer Specific:** FTEs and/or costs that are directly attributed to a customer and not based on the ratio of drivers. While not common, there are some services for which this is the case.
- **Direct:** Operational costs that can be directly ascribed to a service
- **Overhead:** Costs other than direct costs such as space, IT support, security, etc.

TABLE WALKTHROUGH:

1. The budget tables for each service include:

- 100% of the dollars associated with that service
 - o Broken down by Shared and Customer Specific FTE's and dollars.
 - o Also broken down by Direct (FTEs and dollars) and Overhead (dollars only).
- Further breakdown of both labor and non-labor dollars by object class
- Further breakdown of total direct FTEs and full performance grade totals

Note: A significant portion of our overhead costs are attributable to “25.0 Other Services” that we are charged by Fiscal Service for services such as space, security, and IT support. See below for the breakdown of these overhead costs.

"25.0 Other Services"	2020
Admin Support Services (e.g. rent, personnel and physical security, legal)	19,440,000
IT Support	7,284,850
Other	3,607,597

2. The Customer Allocation and Price Table for each service (the allocation of budget dollars)

- Walks from the budget to price by showing the ratio of each customer allocation
- Columns:
 - o Drivers – customer’s volume
 - o % of Total – customer’s ratio of drivers compared to entire customer pool for that service
 - o Allocation – shows the portion of the shared budget costs allocated based on drivers
 - o Allocation Adj – potential zero sum adjustments shifting costs among customers due to ARC needing to adjust the results of the driver ratio allocation (initial ratio does not correctly reflect appropriate allocation of effort)
 - o Cust Specific – shows the portion of the customer specific budget costs
 - o Total Budget – subtotal of Allocation, Allocation Adj, and Cust Specific
 - o ORJ % – (Operating Reserve Justification %) – percentage impact of ORJ Adj dollar figure to Total Budget – all customers impacted same
 - o ORJ Adj – Operating Reserve Justification pricing impact to service
 - o Other Adj – ARC management pricing decisions to smooth adverse customer impact with driver methodology changes or to balance large increase/decrease in price over time for that customer
 - o Other % – percentage impact of Other Adj dollar figure to Total Budget
 - o Sch Price – (Schedule Price) – final total of Total Budget, ORJ Adj, and Other Adj – result is price on price schedule
 - o PPU – (Price Per Unit) – Sch Price divided by Drivers – will match rate on price schedule for service

Note: Customers may find minor variance in their prices in these tables as compared to their actual price schedule due to rounding. They should be very minor.

Customer Allocation and Price Table sample:

Cost Year 2019
Service System Services (FM)

Fiscal Year & Service

Each customer's respective driver count and equivalent volume percentage of entire customer pool for that service. . . used to allocate Shared budget

Reflects figures for respective service on each customer's original IAA price schedule

Org	Customer	Drivers	% of Total	Allocation	Allocation Adj	Cust Specific	Total Budget	ORJ %	ORJ Adj	Other Adj	Other %	Sch Price	PPU

PRICING NOTES

GUIDELINES:

1. Each service line (FM, HR, etc.) estimates operational costs (budget) based on needs to support all existing customers for the upcoming year.
2. These costs are allocated to each service (Commercial Payables - IPP, Classification, etc.) and then further to each customer based on their respective driver portion to the total pool of drivers for that service.
3. Complete ORJ (Operating Reserve Justification) monetizing risk mitigation (e.g. cash flow, unplanned expenditures, and/or loss of customers) and investment requirements (e.g. system enhancements and upgrades)
4. Price customers with the following objectives:
 - Maintain sufficient reserves to ensure we can fund operational requirements
 - Accurately attribute effort and costs of services to our customers
 - Achieve stable pricing that are reflective of customer activity
 - Employ a process that controls rate changes to the extent possible.

NOTABLE CHANGES AND ADJUSTMENTS:

PRICE PER UNIT (PPU) VARIANCES:

Financial Management Services – OBI Services

- Service contains both Discoverer assistance along with new OBI nonlabor charges and additional support needed for transition to updated ad hoc reporting tool.

Financial Management Services – Report Maintenance - BFEM

- Gross contractor supported report maintenance costs increased proportionately to all customers as a result of additional oversight and risk assumption requirements by ARC.

Financial Management Services – System Services (FM) - Help Desk

- Ticket volume reduction occurs faster than cost can be reset to normal levels. Effort of remaining items are usually higher effort as easier items such as password resets have been reduced with self-help solution.

Travel Services – TDY Processing Services

- New FY20 service with combination of previous FY19 services [E-Gov Travel Services & System Services (TR)]. To provide comparison, FY19 data is shown combined under label for TDY Processing Services. Customer rates for FY19 will be vary due to the two previous services having different allocation methods. For FY20 since the costs are blended, inclusion of only one allocation method results in all customers showing same rate.

ALLOCATION ADJUSTMENTS:

Financial Management Services – Attempt to limit the use of adjustments

- While ARC attempts to limit the use of adjustments, the methodology changes within FM services in FY17 had a negative impact on certain customers causing increased usage of such customer smoothing adjustments. For FY19 & FY20 those still continue as ARC works on moving customers off these adjustments while balancing impact of other nominal impacts from supported services. These adjustments are found within Reporting.

FY19 Financial Management Services – Commercial Receivables

- Large volume decrease in service reflected need to combat price per unit increases to a more manageable change for customers to absorb. PPU were pushed to near FY18 levels. FY20 pricing removed this transitional smoothing adjustment to reflect full cost recovery.

FY19 & FY20 Human Resource Services – Classification

- Large volume decrease in service mostly due to government hiring freeze reflected need to combat price per unit increases to a more manageable change for customers to absorb. PPU were pushed to near FY18 levels for FY19 and attempted to make reasonable uptick for FY20.

FY19 Human Resource Services – Personnel Security

- Customer specific OPM pass through variable costs are not adjusted within service by normal HR service line ORJ% Adjustment of -8% in FY19 in attempt to limit need for IAA modifications. Only costs within Allocation column are affected by ORJ% Adjustment causing various percentages reflected across customer base in ORJ% Adjustment. For FY20 ARC returned to affecting the OPM pass through variable costs by the full ORJ% Adjustment since it is routine to have modifications throughout year anyway on those charges.

FY19 & FY20 Human Resource Services – Staff Acquisition

- Large volume decrease in service mostly due to government hiring freeze reflected need to combat price per unit increases to a more manageable change for customers to absorb. PPU were pushed to near FY18 levels for FY19 and attempted to make reasonable uptick for FY20. Each customer reduced by same % although results will look slightly different as customer specific piece is not reduced by this accommodation. Further FY20 reduction was made for certain customers greatly influenced by hiring freeze impact.

FY19 & FY20 Procurement Services – Simplified Acquisitions

- While ARC attempts to limit the use of adjustments, the methodology changes within PR services in FY18 had a negative impact on certain customers causing need usage of such customer smoothing adjustments. For FY20 the usage and magnitude of these adjustments has been reduced.

FY19 & FY20 Procurement Services – 8(a) Direct Awards, MAS/GWAC/TWAC, Complex Contracts, & Simplified Acquisitions

- In past years, ARC maintained procurement staff that only provided support to Fiscal Service. For FY19 the staff has been reduced and blended within rest of Procurement shop. Fiscal Service will be higher within these purchasing services as this staff effect is not fully consolidated within cost structure. Realization of rate increases also were reduced for customers to absorb more manageable change. In FY20 continuation with Fiscal Service adjustment is made along with AFR due to their higher needs in Procurement. Rest of impact has been eliminated.

FY20 Procurement Services – BPA Call & IDIQ TO/DO, IAA/IAA Modifications, Modifications

- AFR has higher needs in Procurement and priced accordingly.

OTHER ADJUSTMENTS:

FY19 & FY20 Financial Management – Grants, Loans, and Foreign Payments

- The Office of Technical Assistance – TDP has a unique process for Personal Service Contractor transactions requiring less effort. Customer Specific adjustment each year was made to capture the costs of the remaining non-standard transactions.
- The Community Development Financial Institutions Fund has requirements above the standard service. The Customer Specific adjustment reflects the cost of this additional effort.
- The allocation to the Other Customer was reduced as have a high percentage of interfaced transactions from customer prepared files.

FY19 & FY20 Financial Management – Reporting

- Housing & Urban Development contains customer specific adjustment for items of nonstandard support within Budget Reporting, Intragovernmental, and Reporting.

FY19 & FY20 Financial Management Services – System Services (FM)

- For this service the Customer Specific adjustment reflects the costs associated to the instance of Oracle in which the customer resides. The only exception to this is that Housing & Urban Development's adjustment also includes a substantial middleware and backup charge that is not applicable to the other customers in this instance. Accordingly, the PPU for HUD is higher than all other customers.

FY19 & FY20 Human Resource Services – Classification

- The allocation adjustment reflects that U.S. Department of Agriculture-OCIO, ITS requests additional scope from ARC above the standard service.

FY19 & FY20 Human Resource Services – Employee Benefits

- The allocation adjustment reflects that Financial Crimes Enforcement Network and Department of Homeland Security – OIG only receives a portion of the full Employee Benefits service.

FY19 & FY20 Travel Services – Relocation - Level 1, 2, 3

- Relocation customers are not required to have ARC perform Relocation - Payments for the payment activity of relocation volume. Customers that choose to not use ARC for Relocation - Payments has additional costs allocated on their relocation services. This outcome due to extra involvement with non-vertical approach.

APPENDIX

DRIVER DEFINITIONS

DRIVER TYPES:

- “Transaction” based – Average annual count of two most recently completed Fiscal Years
- “Point in Time” based – Typically as of around January of current Fiscal Year
- “Level of Effort” based – Objective driver not determined to be appropriate allocation of costs
- “Anticipation” based – Historical knowledge and our current customer assessment guides expected volume
- “Other” based – Doesn’t fit within one of our main driver types.

SERVICE	DEFINITION	DRIVER TYPE
FINANCIAL MANAGEMENT SERVICES		
BUDGET PROCESSING	# OF BUDGET DOCUMENT LINES PROCESSED <u>TRANSACTION TYPES:</u> BUDGET ALLOCATION – MANUAL & INTERFACED BUDGET APPORTIONMENT AVAILABLE – MANUAL & INTERFACED BUDGET APPROPRIATION – MANUAL & INTERFACED BUDGET APPORTIONMENT UNAVAILABLE – MANUAL & INTERFACED	TRANSACTION
BUDGET REPORTING	BASED ON HISTORICAL LEVEL OF EFFORT <u>FACTORS INFLUENCE THE LEVEL OF EFFORT:</u> COMPLEXITY OF THE ACCOUNTING AND FUNDS CONTROL STRUCTURE ACCOUNTING REQUIREMENTS OF THE FUNDS INVOLVED	LEVEL OF EFFORT
CASH SERVICES	BASED 75% = # OF UNEXPIRED TREASURY ACCOUNT SYMBOLS BASED 25% = # OF CASH TRANSACTIONS (I.E. HEADERS) PROCESSED <u>TRANSACTION TYPES:</u> USSGL = 10100021, 10100022, 10100027, 10100028, or 10100029 & JE SOURCE = “BUDGETARY TRANSACTION”, “PAYABLES”, or “RECEIVABLES”	POINT IN TIME & TRANSACTION
COMMERCIAL PAYABLES – IPP	# OF AP DOCUMENTS (I.E. HEADERS) PROCESSED <u>TRANSACTION TYPE:</u> AP INVOICES – IPP	TRANSACTION

COMMERCIAL PAYABLES – NIPP	# OF AP DOCUMENTS (I.E. HEADERS) PROCESSED <u>TRANSACTION TYPES:</u> AP INVOICES – ZDIs – COMMERCIAL AP INVOICES – COMMERCIAL INTERFACED (x0.1 WEIGHT) AP MANUAL PAYMENTS (x2 WEIGHT) AP COMMERCIAL INVOICES – MANUAL PURCHASING – INTERFACED OBLIGATIONS – MANUAL PAYMENTS (x0.1 WEIGHT) PURCHASING – INTERFACED COMMERCIAL OBLIGATIONS (x0.1 WEIGHT) PURCHASING – MANUAL OBLIGATIONS – MANUAL PAYMENT PURCHASING – MANUAL OBLIGATIONS – COMMERCIAL PO RECEIPTS (ACCRUALS) – GRANTS & LOANS PO RECEIPTS (ACCRUALS) – FOREIGN PMTs & MANUAL PMTs & PSC PO RECEIPTS (ACCRUALS) – FEDERAL & COMMERCIAL	TRANSACTION
COMMERCIAL RECEIVABLES	# OF AR DOCUMENTS (I.E.
