

### Overview/Summary of Services//ARC-25-

ARC provides a full range of HR services including classification; staff acquisition; payroll and leave administration; processing personnel actions, eOPF and records; employee benefits; labor relations; employee relations; workers' compensation; and HR help desk and reporting services. These services are detailed within this document, as are any additional services that we optionally offer to ARC's full-service HR customers.

The processes, procedures, and internal controls used to carry out ARC functions, and the management of its resources are strictly within ARC's span of control. For service requests that fall outside of our standard offering, customers will need to engage in formal change control processes with ARC management.

#### **Authority and Retention**

The customer delegates to and authorizes ARC and its employees to conduct the activities necessary to provide the services described in this service description. It is noted that the customer retains the right to exercise its human resource authorities, as deemed necessary. However, it is incumbent that the customer does not use authorities and system accesses to perform transactions for specific types of employee populations (e.g., SES, SL, Schedule Cs, etc.) serviced by ARC. Likewise, ARC shall not perform transactions for specific types of employee populations where service is retained by the customer. Adherence to these responsibilities is required to ensure integrity of our services, maintain audit compliance, and meet internal control objectives.

The customer authorizes ARC to input and store information in electronic systems used by ARC. Access to these systems is controlled by a user's Personal Identity Verification Card (PIV) credentials or other Multi Factor Authentication service, such as Login.gov or ID.me in accordance with relevant laws, regulations, security requirements, privacy act and policies, such as:

- Coordination of Federal Information Policy [44 USC Ch. 35] which includes Federal Information Security Modernization Act (FISMA) of 2014 [PL 113-283]
- Recommended Security Controls for Federal Information Systems and Organizations [NIST SP 800-53, Revision 5]
- Guide for Developing Security Plans for Federal Information Systems [NIST SP 800-18, Revision 1]
- Managing the Security of Information Exchanges [NIST SP 800-47, Revision 1]
- Office of Management and Budget (OMB) Circular A-130, Appendix III: Security of Federal Automated Information Systems
- Federal Information System Controls Audit Manual (FISCAM)

ARC will maintain the supporting documentation related to transactions processed and reconciliations or reports prepared, including both electronic and/or paper records, in accordance with the current Fiscal Service File Plan. Records retained are available for review and audit as needed and will be provided to customers in support of their data call and reporting submissions to OPM, OMB, and other government entities. Records will be destroyed at the end of their retention period.

### **☑** Classification Services

## **Description**

Classify a full range of position descriptions for the customer in accordance with established Office of Personnel Management (OPM) classification principles and standards, and customer policies and procedures. Additionally, ARC can provide advisory and project support for workforce planning and position management activities.

- Average annual number of classification drivers for the two most recently completed fiscal years. Classification drivers are computed as follows:
  - Number of full classification activities, such as the establishment of new position descriptions, reclassifications, desk audits, appeals, advisories and accretion actions x 100%
  - Number of minor PD changes, such as statements of difference, pen and ink changes, classification standard reviews (final & draft), changes due to reorganization, abolishment of PD, Personnel Office Identifier conversions x 10%

### Staff Acquisition Services

### **Description**

Provide staff acquisition services in accordance with US Code, CFR, OPM delegated examining (DE) procedures, union contract(s) for bargaining unit employees, the customer agency's merit staffing plan authority, or other applicable agency specific policies. If filling positions through delegated examining, actions will be accomplished in accordance with the customers delegated examining authority. ARC employees are DE certified by OPM; however, to fill DE positions for customers, each organization must maintain a delegated examining agreement with OPM and have at least one staff member who maintains current DE certification status.

Responsibilities	ARC	Customer Agency
Attract, recruit, and assess employees with the right skills and competencies, in accordance with Merit System Principles		Х
Translate projected agency human capital requirements into a formal hiring projection. Communicate and partner with ARC at earliest opportunity to develop a manageable hiring strategy that allows for adequate resource planning by ARC		X
Provide copies of all applicable and current policies, departmental requirements, and bargaining unit information of the customer agency <sup>3</sup>		Х
Share any draft policy or agency process change to ensure proper consideration of ARC required operational/system changes, consideration of efficiency/effectiveness impact, and potential impact to service level agreement		X
Maintain a delegated examining agreement with OPM		X
Designate at least one staff member who maintains current DE certification status		X
Provide an agency accountability POC to work with ARC's accountability team in scheduling internal reviews. Provide a 60-day written notice of internal and agency-led reviews		X
Perform an annual self-audit. This documentation will be requested in advance of an OPM or agency-level review <sup>4</sup>		Х
Provide a 90-day notice of an OPM review, to include the OPM scheduling letter, case listing, and documentation requested in the Advance Information Request (AIR)		х

<sup>&</sup>lt;sup>3</sup> If an independent customer agency does not provide a Merit Staffing Plan or interim plan, ARC will use its generic version for guidance, and a copy of this policy will be provided. After reviewing all policies currently in use, ARC may make suggestions to revise the policies to accomplish the work more efficiently. If additional policies are needed to accomplish the work, or required by new regulations, ARC will provide sample policies, if available, and comment on draft policies as they relate to ARC operations work. It is up to the customer agency to coordinate any changes in policies with any higher-level organizational authorities.

<sup>4</sup> Customers are encouraged to provide tentative audit date at the beginning of the fiscal year, so that multiple customer audits do not overlap. At a minimum, customers must provide a tentative audit date to ARC at least three months prior to the audit. ARC will be permitted to reschedule any tentative audit dates based on prior approved scheduled audits. Customers are required to review 10% of DE cases up to a maximum of 25 cases. Time period to review audit cases will be 2 weeks. Case file reviews during the investigation period will not generally extend beyond two weeks.

Ensure agency accountability POC coordinates with ARC's audit POC on all internal, agency-led, and OPM audit responses and any resulting		Х

Errors for this purpose are calculated based upon 12 specific data points per case reviewed. 12 data points include: 1) Rating methodology is correct (Category rating is checked for DE postings; any customer specific rating policies are identified in JOA; the question type, language, and point values match what is approved in the job analysis); 2) Qualification determinations are made appropriately; 3) Necessary rating adjustments are made and fully documented; 4) Late applications are properly accepted or rejected; 5) Applicant eligibility is appropriately verified (US citizenship, time in grade, TACA, location, etc.); 6) Priority consideration for displaced/surplus employees is given; 7) Veterans' preference is accurately applied; 8) Certification procedures are appropriate; 9) DE selections were made from the top category and in accordance with veterans' preference; 10) OF-306 is complete and verified; 11) Selectee compensation/pay is calculated accurately (Recruitment, Retention and Relocation Incentives, Student Loan Repayment, Superior Qualification/Special Needs Authority, etc.); 12) Authorized new hire checklist is complete and accurate.

### ☑ Payroll, Processing, Personnel Records, Benefits and Retirement

### **Description**

In accordance with regulation, ensure payroll and personnel actions are submitted timely and accurately to the payroll provider, National Finance Center (NFC), and manage personnel records associated with those actions. Provide leave administration and time and attendance support. Support customer benefits needs to include benefits administration, retirement, and death cases, employee assistance program coordination, and advisory services for management. ARC uses webTA/GovTA for time and attendance, USAS Onboarding and HRConnect for payroll and personnel action processing, Government Retirement Benefits (GRB) for benefit and retirement administration, and eOPF for the maintenance of Official Personnel Folders (OPFs).

Responsibilities	ARC	Customer Agency
General		-
Publicize the requirement to use HR systems (e.g., NFC's EPP, HRConnect, eOPF, GRB, USAS Onboarding, etc.) for making permissible personnel, payroll, and benefits changes, generating retirement annuity estimates, and retrieving SF-50s <sup>11</sup>		Х
Provide copies of all applicable and current policies and agency/departmental requirements <sup>12</sup>		Х
Designate a point of contact to provide guidance when applicable policy documents require interpretation		X
Designate a point of contact to receive notices prepared by the ARC staff, and timely distribute to all employees regarding HR related information		X
If ARC notices are not used, provide actual notices to ARC prior to distribution to employees		X
Respond timely to inquiries concerning current issues that predate ARC servicing		Х
Forward court-ordered garnishments to ARC within one business day of appropriate legal review, to ensure timely processing		X
Provide employee notice of court-ordered garnishments (e.g., child support, bankruptcies, commercial garnishments, education loans, alimony and tax levies) and enforce regulatory maximums for collection	Х	
Determine process/procedure and internal controls necessary to carry out functions and manage resources	Х	
Serve as primary contact with NFC	X	
Support the customer in response to audit preparation and/or audit findings related to ARC Payroll, Processing, Benefits, and Retirement services	X	

<sup>&</sup>lt;sup>11</sup> The use of EPP is mandated to protect Personally Identifiable Information (PII).

<sup>&</sup>lt;sup>12</sup> Required policies include but are not limited to leave administration, hours of work/work schedules and waiver of salary overpayment.

<sup>&</sup>lt;sup>13</sup> Award SF-50s flow directly from NFC into the Performance Folder within eOPF. ARC maintains electronic copies of performance appraisals locally (not within eOPF), if provided by the customer. ARC can provide customers the Import Role in eOPF for those customers wishing to have their performance appraisals loaded into eOPF or alternatively ARC can make arrangements to have the documents loaded in batch at the government-approved scanning facility at the customer's expense.

<sup>&</sup>lt;sup>14</sup> ARC must receive personnel actions, to include all the documentation required to process, no later than noon Eastern Time on the first Friday of the pay period before the proposed effective date. Personnel actions not submitted timely will be processed at the beginning of the following pay period.

<sup>&</sup>lt;sup>15</sup> ARC will review each request to assess level of effort and project scope for each reorganization/realignment. Based on the size and/or complexity of the request, ARC reserves the right to utilize the internal HR governance process review to manage expectations, negotiate effective dates, and/or determine if additional costs are warranted.

<sup>&</sup>lt;sup>16</sup> Reorg effective date blackout eriod includes pay periods 19 through 21 and pay periods 26, 1 or 2.

For purposes of this definition:
  - Corrective actions include counseling memos, suspension proposals and decisions, reprimands, removal proposals and decisions, terminations, leave restriction notices, administrative grievance replies, performance improvement plans, and any other document drafted or reviewed by ARC to address a performance or misconduct issue
  - Data audits include audits of records such as time and attendance, entry/egress, computer activity, video footage, or other similar records that do not result in corrective action

## **☑** Reduction in Force (RIF)

## **Description**

RIF actions will be accomplished following appropriate statutes, regulations, policies, and applicable negotiated agreements. The laws addressing RIFs are codified in Section 12 of the Veterans' Preference Act of 1944, Sections 3501 through 3503 of Title 5, United States Code (5 U.S.C. 3501-3503). OPM implements these statutory requirements through regulations published in part 351 of Title 5, Code of Federal Regulations (5 C.F.R. part 351).

When an agency conducts a RIF, ARC may be required to assist in the process. If ARC's assistance is needed (e.g., checking OPFs, creating registers, drafting communications, providing additional reports, etc.) additional effort will be assessed.

### 

#### **Description**

ARC provides help desk services from 7:00 am to 5:00 pm EST, Monday through Friday excluding federal holidays:

Request assistance by calling 304-480-8000, option 4, or sending emails to HRSystems@fiscal.treasury.gov.

#### webTA/GovTA

webTA/GovTA is a federalized time and attendance system provided by UKG, Inc. It is designed to interface with USDA's NFC and allows for employee or timekeeper entry of time and attendance data. webTA/GovTA also allows for the electronic creation, routing, and approval of leave and premium pay requests as well as access to real-time data in predefined reports.

#### System Backups

System backups are performed nightly and stored on the Zero Data Loss and Recovery Appliance for four weeks. Each nightly backup is updated with the most recent data from the reoccurring backup job executed.

#### Software Maintenance

UKG Inc. provides maintenance and upgrades to the software as improvements are made or problems encountered. The annual software maintenance fees that are incurred by ARC are passed to customer agencies. ARC will evaluate system patches and upgrades as they become available and will implement those where the added functionality is deemed worthy of the effort.

#### System Accessibility

Unless otherwise specified, users will access our systems via the Internet. Internet access will be limited to the specific government-recognized IP address range provided by the customer. These Internet connections will utilize Transport Layer Security to protect the sensitivity of the data being accessed.

Note: Federal Information Security Management Act (FISMA) Compliance and Reporting ARC ensures full FISMA compliance and reporting for webTA/GovTA. As a result, customer organizations should not include webTA/GovTA in their FISMA reporting to OMB. FISMA compliance items include the following:

- Completion of Security Assessment and Authorization activities as prescribed by the U.S.
   National Institute of Standards and Technology and OMB Circular A-130
- Completion of annual continuous monitoring and testing
- Tracking of Fiscal Service employee annual security awareness and specialized training

All FISMA related documentation is available for review upon request. Signed nondisclosure agreements and evidence of appropriate background clearances may be required prior to granting access to documentation.

#### System Availability

Standard hours of system availability are 5:00 am to 1:00 am ET with the exception of required maintenance periods described below.

- Primary weekly maintenance window 1:00 am Sunday to 1:00 am ET Monday every week
- Secondary weekly maintenance window 8:00 pm Tuesday to 1:00 am ET Wednesday every week
- Nightly backup maintenance window 1:00 am to 5:00 am ET every day

While the system may be available on occasion during the aforementioned primary and secondary weekly maintenance windows, a notice of system unavailability will not be provided to users when maintenance is occurring during these times.

#### **HRConnect**

HRConnect is the enterprise-wide human resources management system owned and administered by the Department of the Treasury. Treasury's HRConnect Program Office (HRCPO) is ARC's partner as a designated shared service center through the HR Line of Business.

HRConnect allows managers to electronically initiate, approve, and track personnel actions, awards, and performance appraisals, and view a variety of personnel data on employees reporting to them or to their subordinate supervisors. Employees can review and request changes to their own personal information. HRConnect is a front-end system for sending personnel action data to the USDA National Finance Center's Payroll/Personnel System. The standard HRConnect modules are Employee Self Service (ESS), Manager Self Service (MSS), and HR Self Service (HRSS). Other modules are also offered such as PDS, (PIV Data Synchronization) module and SEC (Separating Employee Clearance).

#### **Employee Personal Page (EPP)**

EPP is NFC's Web-based application that provides employees self-service access to their personal information. EPP provides employees with the ability to view and make changes to their direct deposit, tax withholding, payroll allotments, and benefit information. Employees can view their earning and leave statement, health and life insurance, W-2, and other personal information.

#### **eOPF**

eOPF is OPM's electronic official personnel folder application that provides employees self-service access to their personnel record. eOPF provides HR users and employees with the ability to view and download documents loaded in their personnel file.

#### **WorkForce Analytics/Data Insight**

Workforce Analytics is the reporting system owned by the Enterprise Data Management with OCIO, Department of Treasury. Reporting data is accessed through the Data Insight Portal within Workforce Analytics by using HRConnect credentials. Data Insight provides self-service reporting capabilities for authorized users in a secure environment. The data warehouse provides comprehensive dataflows from HRConnect, National Finance Center (NFC), webTA/GovTA, and Personnel Action Workflow System (PAWS)/HRSM (ServiceNow). Workforce Analytics provides access to a range of pre-built Human Capital reports and dashboards that can be filtered for ease of use. The reports and dashboards contained within this portal provide executives, human capital employees, and leaders at all levels with valuable insight into the historic, current, and future make-up of their organizational workforce. Topics include strength, accessions, separations, position classification, hiring timeliness, retirement forecast, and much more.

#### **National Finance Center (NFC)**

NFC is the Department of Agriculture's payroll/personnel system. In addition to payroll/personnel processing, NFC provides reporting tools (such as FOCUS, Data Insight and Reporting Center).

#### **USA Staffing**

USA Staffing supports over 100 agencies across government in assessing, selecting, and onboarding qualified candidates in alignment with Merit System Principles. As part of the U.S. Office of Personnel Management's (OPM) Talent Acquisition Solution, USA Staffing facilitates Federal policies, practices, and laws for the full range of hiring. It is the primary interface for hiring managers, HR professionals, applicants, and new hires interacting with the Federal hiring process.

The onboarding module is a highly configurable, integrated portal to track all of the various stakeholder tasks for seamless employee onboarding. Onboarding provides a secure method for collection of new employee forms and information for HR use in processing actions, and transmission to applicable downstream systems, such as HRConnect and e-opf. USA Staffing also offers other modules such as USA Hire.

#### **Integrated Talent Management (ITM)**

ITM is the Department of Treasury's integrated system for managing employees' learning, performance, and competencies. ITM is available currently for only Treasury customers. Modules include:

- **ITM-Learning Management** Delivers annual and other online training courses. Individuals can develop training plans for themselves and others. Administrators can plan, schedule and execute training plans and resources. Supervisors, leaders and administrators can assign and track the training of organizations.
- **ITM-Performance Management** Stores standard performance elements, provides a means to develop goals and align them to others and the organization, and uses algorithms and workflows to shepherd and track performance documents throughout the performance review process.
- **ITM-Other** (Analytics, Competency Management (e.g., Competency Assessments), Development (e.g., IDPs), Succession Planning, and/or Workforce Planning)

### **Government Retirement Benefits (GRB)**

GRB allows employees to review their specific benefits, such as health insurance, life insurance, TSP, etc., review current total compensation statement, generate an unlimited number of retirement estimates via self-service, and submit requests and documents to the ARC benefits team.

### **Primary Pricing Driver**

#### Help Desk:

Average annual number of weighted help desk tickets based on the following formula: (webTA/GovTA/USA Staffing/WFA/NFC/eOPF/Audit Response tickets/ITM Learning/ITM Other/EPP/HR Inquiry/General tickets  $\times$  1) + (HRConnect tickets  $\times$  4) + (ITM Performance  $\times$  6) for the two most recently completed fiscal years

#### HR Reports:

Average annual number of weighted reports produced based on the following formula: (recurring (e.g., pay period) reports x 0.05) + (Level 1 ad hoc x 1) + (Level 2 ad hoc x 2) + (Level 3 ad hoc x 5) + (expedited (same day turnaround) (Level 1 ad hoc x 2) + (Level 2 ad hoc x 3) + (Level 3 ad hoc x 6) for the two most recently completed fiscal years

### Report level definitions:

- 1 = Query already exists, run as is
- 2 = Create new report based on existing query; adding or changing fields, variables or formats
- 3 = Create new report not based on existing query; report involves extensive research and time to create
